PAARA POLICIES

Membership in PAARA is \$6.00 per calender year (payable in Jan), which includes a subscription to Paaragraphs. Make payment to :PAARA, P.O. Box 911, Menlo Park, Ca. 94026

DON'T MISS THE JANUARY MEETING!!! Fri. Jan 4 1985 7:30PM

We've got a real barnstormer to start off the new year!

"A HAM's LIFE IN FRENCH POLYNESIA"

Ross Forbes WB6GFJ / FO0FB

Ross will share with us some samples of the 8000 slides he has collected over the past 8 years during his summer trips to TAHITI, MOOREA, BORA BORA, & RANGROA. There will be some shots of ham activity, but the slides are mostly about life in these exciting South Pacific islands. Ross has learned the Tahitian language and also speaks French, so he has acquired a real intimate knowledge of the people, culture, and life style of these intriguing ham DXpedition spots. On his last trip there, he was a tour guide. He'll talk about pearl diving, what it's like to live on an island without any electricity, all the beautiful birds and flowers ---- . The slides also include his trips to the Cook Islands, New Zealand & Australia.

PACKET RADIO EXPERIMENTS

At our December 84 PAARA meeting, we had the good fortune of hearing all about the latest frontier in ham radio from Ted Harris, N61IU. Some PAARA members were involved in the MEDEX simulated emergency exercise the following Saturday. Andy VE3FZK and Dave KB6FVA were at Kaiser Hospital in Redwood City, and Larry W6KZJ was at Sequoia Hospital, also in Redwood City. Quite a few SPECS members were at various hospitals and Red Cross locations further south. Anyway, to make a long story short, it was a succesful SET especially because of the support by the packet radio units. At Kaiser Redwood City, we had Dick W6HPA and his son Alexander who just got his ham license, manning a packet station. Dave WA6YSO also came by to observe, and the result was that the above two Dave's and I (Andy) got the bug!

Dave WA6YSO got started building up an interface for his Commodore 64 and KB6FVA is doing the same, also with a VIC20. I wrote a program to grab audio off the air into my APPLE II and digitize it. We all have been studing every piece of literature we could beg, borrow (but not steall). I arrived at the point where I decoded one packet by studying the zero-crossing intervals in it and coming up with 1's & 0's manually off a printout. At this point in time, I can't come up with the right value for the checksum.

SELECTIVE CALLING WITH THE TR-2600

I talked to 3 hams on 145.23 recently who have their new Christmas "toy" to brag about! They are still trying to figure out how to use it, but it looks pretty exciting. Anyway, I got W6IKR to send me a few selective calling bursts out of his TR-2600 and I snatched them off the air and stored them on a floppy disk for analysis later on (after I do my job of substitute editor here and get this bulletin mailed out before Jack W6LII and Rob KA6NAN kick me off this Mac so we can all go home!)

Andy VE3FZK

NEW MFJ VERSALOAD MFJ KW DUMMY LOAD

Lets you tune up fast into 50 ohm resistive load. Extend life of finals. Reduce QRM. Includes transformer oil. 1 KW CW, 2 KW PEP for 10 minutes. Low VSWR to 400 MHZ.

Includes high quality transformer oil. Low VSWR to 400 MHZ. 1 KW CW, 2 KW PEP.

\$34⁹⁵

New MFJ-250 VERSALOAD kilowatt dummy load lets you tune up fast. Extends life of transmitter finals. Reduces on the air QRM.

Run 1 KW CW or 2 KW PEP for 10 minutes, 1/2 KW CW or 1 KW PEP for 20 minutes. Continuous duty with 200 watts CW or 400 watts PEP. Complete with derating curve.

Quality 50 ohm non-inductive resistor. Oil cooled. Includes high quality, industrial grade transformer oil (contains NO PCB).

Low VSWR to 400 MHZ: Under 1.2:1, 0.30 MHZ 1.5:1, 30-300 MHZ 2:1, 300-400 MHZ

Ideal for testing HF and VHF transmitters. SO-239 coax connector. Vented for safety. Removable vent cap Has carrying handle. 7-1/2 inches high, 6-5/8 inches diameter.

Order from MFJ and try it — no obligation. If not delighted, return it within 30 days for refund (less shipping). One year unconditional guarantee.

Order today! Call TOLL FREE 800-647-1800. Charge VISA, MC or mail check; money order for \$34.95 plus \$4.00 shipping for MFJ-250.

Don't wait, tune up fast and save those finals and reduce on the air QRM. Order today!

MFJ ENTERPRISES, INC.
BOX 494, MISSISSIPPI STATE, MS 39762

FEATURES:

- Compact Size
- Built-in Receiver Preamp
- All-mode SSB, FM, and CW
- Complete Front Panel Switching
- Automatic Antenna Changeover
- 2 Watts In — 30 Watts Out

SPECIFICATIONS:

Frequency Range: 144 to 148 MHz
 RF Power In: 200 mw to 5 Watts
 RF Power Out: 30 Watts (2 m, 30 out)
 Modes: SSB, FM, and CW
 Receiver Preamp: 10 db gain min. 2.0 db 5 db noise figure
 DC Power: 13.6 VDC 5 Amps
 Size: Weight: 3" x 2" x 7 1/2" Lbs
 Warranty: 5 years (1 year RF Power Trans.)

B23A — 2 Meter Amplifier 2W IN — 30W OUT
