Elecraft K3 Features & Developments

Do not miss this special evening with Elecraft's Eric Swartz talking about the **PAARA Raffle 1st prize Elecraft K3**. Eric will discuss Elecraft new products, firmware, sponsored K3 DXpeditions, and many other interesting topics.

Upcoming Events

- Dec 5 PAARA General Meeting, 7:00 PM
Cubberly Community Center, Room H-6
400 Middlefield Rd, Palo Alto
- Dec 17 Board Meeting, 7:00 PM
Everyone welcome!
Round Table Pizza Parlor in Menlo Park
- Jan 9 PAARA General Meeting, 7:00 PM
Cubberly Community Center, Room H-6
400 Middlefield Rd, Palo Alto
- Jan 23 Winter Banquet

President's Corner

December 2014

Welcome December and our final issue of PAARAgraphs for 2014, and that brings with it our big December PAARA meeting. The Dream To Reality Raffle is coming up, and you don't want to miss it. Officer elections are happening at the December meeting as well. We've also wound

down the fall contest season, but still have some fun left to have before the year is out.

The big December meeting is slated to be one to remember. We will have a special program with Eric Swartz to tell us all of the new things that are going on at Elecraft, our PAARA leadership elections, and then the big Raffle with over \$1,900 in prizes. The biggest prize of all will be an Elecraft K3. You can win this K3 with just \$1, but of course your chances increase with more raffle tickets. Every year we have some big spenders, so you might want to consider a few extra tickets. We have confirmed with Elecraft that our club has given away more K3s than any other club. Please join us for this special event that will also feature a 50W VHF/UHF mobile rig, a great microphone, and many other items you'll want in your shack. While you're there, you'll want to hang out with Eric and hear his talk. Who knows, maybe we'll get some breaking news about what Elecraft has cooking for their newest products. Time will tell!

While you're at the December meeting, don't forget to vote in the ever-contentious PAARA leadership election. Election chair Daniel, KJ6SEE, will be there to hand out and collect the ballots for 2015. In order to vote in this important election, you need to be a member for 2014. If you aren't a 2014 member, Jim, K6SV, will be there to collect your dues so that you can participate. Jim will also be glad to get you all set up for 2015 as well, so that you don't miss a single issue of this fine publication. Your membership goes towards its publication, and toward a number of other activities that we work on throughout the year. We hope that you'll support your club both

(President — Continued on page 4)

PAARA Dec. 5th Meeting *and* “Event of the Year”

PAARA “Dream to Reality Raffle XI” with over \$1900 in prizes

The “top of the line” Elecraft K3 will be the featured prize. Raffle tickets will be sold until 9:30. YOU MUST BE PRESENT TO WIN THE GRAND PRIZE, WE KEEP PULLING TICKETS UNTIL WE GET A LIVE ONE.

PAARA “The Friendliest Club Around”

Palo Alto Amateur Radio Association, Inc. www.paara.org

Date and Time: Friday, Dec. 5th at 7 p.m.

Cubberley Community Center

4000 Middlefield Road, Palo Alto, CA.

Welcome Members and Visitors / Raffle Prizes:

FIRST PRIZE: Elecraft K3 HF- 6m

Ultra-High Performance Transceiver “Special Thanks to Elecraft”

- Main Receiver and Sub-Receiver Feature a High-Dynamic-Range, Down-Conversion Analog Architecture
- Roofing Filters with Bandwidths as Narrow as 200 Hz
- Both Fixed- And Variable-Bandwidth Crystal Filters in Both Data, CW, and Voice-Mode Bandwidths
- Two 32-bit Digital Signal Processors Provide True Software-Defined Features, Along With Expansion Memory to Handle Future Signal Processing Tasks

SECOND PRIZE: Yaesu FT-90R Thanks Vic AB6SO!

50 Watt VHF/UHF Dual Band FM Transceiver

- Size: 3.9" x 1.2" x 5.4" (100mm x 30mm x 130mm)
- Weight 1.42lb. (644g)
- Front Panel is Removable
- High-Capacity Memory System
- Direct Keypad Frequency Entry
- User-Programmable Function Keys

THIRD PRIZE: Shure 450 Series II Dynamic Microphone Thanks Jim Thielemann K6SV!

FOURTH PRIZE: Battery Tender Junior / 12V / 750ma Battery Charger Thanks Vic AB6SO!

FIFTH PRIZE: ARRL Small Antennas for Small Spaces Book

SIXTH PRIZE: ARRL Antenna Compendium

SEVENTH PRIZE: Two Rolls of Rescue Tape

EIGHT PRIZE: Bongo Ties

Since Feb. 2003, 275 Radios, including EIGHT Elecraft K3's, a Yaesu FT-847, an Icom 706 MK IIG, a Yaesu FT-897D, and TWO Elecraft KX1's have gone to Fellow Hams.

Special Thanks to Howard, Jon, Mark, and everyone at HRO for their continued SUPPORT!

K6AK Jim Rice

Another Clandestine Radio of WWII

Hiroki Kato, AH6CY

I wrote an article and its follow-up for the PAARA-graph about two clandestine radios of WWII a while ago: the so-called "canteen radio", [ed December 2012 issue] a single-tube receiver built by an American POW in a Japanese prison camp in the Philippines and the Paraset, a three-tube transceiver built for the SOE spy agents to use behind the German lines in France, Norway etc. I marveled at these ingenious radios built and operated in the most trying circumstances of war. Recently I came across yet another secret radio built in the most difficult human conditions.

I was recently visiting the Mauthausen concentration camp near Linz, Austria. The camp was one of the largest concentration camps built and operated close to Adolf Hitler's birth place*(*Hitler as well as Eichmann were originally Austrians; many Austrians, despite their early post-WWII claim of being the first victim of the Nazi Germany, were enthusiastic supporters and collaborators of the Nazis in the 1930s and '40s. 200,000 people gathered in a park in Vienna to welcome Hitler in 1938.

There has never been such a large gathering in Vienna (before or after) and was actually the flagship camp of a large camp complex consisting of many satellite camps scattered within 20 km radius. Unlike Auschwitz in Poland or Sachsenhausen in Germany which were designed to exterminate large number of Jews, the Mauthausen complex was built initially for internal political prisoners and "undesirables," including intellectual opponents of Nazism, homosexuals and Gypsies but as the Nazis' invasion of surrounding European countries expanded, it was used to house and kill the inmates from more than 30 nations. Of the 200,000 inmates (estimates vary from 100,000 to 300,000) who perished there about 60,000 were Jews.

Mauthausen was different from other concentration camps in another respect also. It was a slave-labor camp which first supplied labor force for quarrying granite building material for Nazis' major building projects and later to built vast underground manufacturing facilities which built weapons, tanks and aircraft, including Messerschmitt jet fighters, for the Nazis.

(Continued on page 6)

(President — Continued from page 1)

financially and through participation in our activities; perhaps even volunteering to help out. Our club does what it does only through the support of our membership. Please consider renewing your membership early and giving us a hand when you can. Thank you.

The biggest part of the contest season for this year is coming to a close. The remaining large contest is the CQ World Wide DX CW contest, which happens right after Thanksgiving on the weekend of the 29th and 30th. This is a great contest to have some fun with. If you're at a big station, you can get DXCC in one weekend. At a smaller station, you can find some great DX on the air. The exchange is very easy, with there just being a signal report and the CQ Zone of the station. For us, that would be just "599 3", so it's hard to miss. Many DX stations will be contest stations, so you can search and pounce as you collect those countries. This past month, I had a chance to participate in the ARRL Sweepstakes CW with Andreas, N6NU, and Chris N6WM. It was great fun, and also a great challenge. The Sweepstakes exchange is very long for a contest - their call, serial, precedence, my call, check, section - so you really have to be ready to copy. We were operating the K6LRG contest station remote from Andreas's QTH. It was a really interesting experience to be keying remotely. There was a slight delay which was a bit disconcerting, but it was doable. All in all, though, the contest was a great experience.

Don't forget that ARRL Straight Key Night is December 31st local time. That's a great low-key (so to speak) contest where CW is sent slow and steady. Just ragchew and have some fun. I think 40m is the place to be for that one.

If I don't get a chance to see you before the end of the year, I'd like to wish you all a wonderful and magical Holiday Season, and a healthy and prosperous 2015. I hope you'll all join us for another year of PAARA fun.

CU AT DREAM TO REALITY AT PAARA DE K6WX.

-Kristen (K6WX)

November 19, 2014

Board Meeting Minutes

The November Board Meeting was held at the Menlo Park 'Round Table Pizza Parlor', commencing at 7:40 on November 19th, 2014. In attendance were Kristen McIntyre, K6WX (President), Marty Wayne, W6NEV (V.P.), Jim Thielemann, K6SV (Secretary/Membership), Darryl Presley, KI6LDM (Dir), Larry Rebarchik, N6DB (Dir), Byron Beck, N6UOB (Dir), Rob Riley, KI6INR (Dir), and non-Board Members, Gerry Tucker, N6NV (Property Manager), Joel Wilhite, KD6W (Technical Coordinator), Rick Melrose, K6RDM (Chaplain), Doug Teter, KG6LWE (Field Day Coordinator), Sergey Nikiforov, NS6W and Walter McVeigh, KK6GTU. A quorum was present.

President's Report: Kristen, K6WX, commented on large turnout at this month's board meeting. She mentioned having a great trip to JA land having made it back to the US the day of the board meeting, thus a bit jet lagged. Once again she's looking for a great speaker for the Winter Banquet. If anyone has a good idea, let her know immediately as she'd like to put a bow on this.

She reminded everyone of the December "Dream to Reality" raffle. Once again PAARA is raffling off a K3. According to Elecraft, "PAARA has given away more K3's than any other club". It's not too late to start saving your pennies so you can better your odds at the December 5th meeting.

She also mentioned that election nominations have closed. Up for election are the 4 officers and 2 of the directors. See Daniel Rahamin, KJ6SEE, in the back of the room to cast your vote during the December meeting. Remember you must be a member of PAARA for 2014 in order to vote.

Kristen indicated her reserve of stories is rather thin again. She'd like to see the stories that members have committed to sooner than later. Do you have any projects, like those for home brew night in January, technical articles, hints n kinks, DX, setting up your station or antenna, on the air experiences that might be of interest? We can even help you write

(Minutes — Continued on page 5)

(Minutes — Continued from page 4)

them up, “even if it’s only 4 sentences”, says Kristen.

Vice President’s Report: Marty, W6NEV, reported that the speaker for the December meeting is Eric Swartz, WA6HHQ, will update us on what’s new at Elecraft. Marty also reported that he has speakers lined up for the first 2 months into next year but is looking for ideas from the membership for speakers to fill out the rest of the year. Marty is still working on the next field trip. There is an idea brewing. Stay tuned.....

Secretary’s report: Jim, K6SV, reported that the membership stands at 143 for 2014, with 21 members paid through 2015, for a total of 164 members. So far there have been 46 renewals via PayPal through the Club website. He also reported there were one new member and one renewal in November. Now is the time to jump on the website and renew for 2015 via PayPal as all 2014 memberships end shortly. As always, you can pay at the meeting but PayPal is quick and easy. You can check the year you are paid through on the mailing label on PAARAgaphs. Your “membership year” is shown next to your call sign.

Jim also mentioned the holiday closure dates for the printer of PAARAgaphs. The board agreed on publication of the January issue a bit earlier than usual to make sure the membership knows the January meeting will be on the 9th and NOT the 2nd.

Treasurer’s Report: Ron, W6AZ, was not able to be at the meeting due to other commitments.

Under Old Business, Jim, K6SV, reported that the member roster was updated on November 9th.

Joel, KD6W, again suggested the board consider selling the DStar repeater 2M & 70cm equipment and purchasing a DMR repeater. The board is concerned that owing to the DStar repeater being donated to the club, research is needed into any ramifications of selling the equipment before agreeing to sell it. Also required is agreement from the donor that it is acceptable for us to sell the equipment. In the mean time, Joel made it clear that the repeater needs to move out of his residence much sooner than later.

Sergey, NS6W, discussed with the board the value of a club station. A diverse discussion ensued on the merits of having a station, possible locations, type of station, and how to approach the process. Sergey agreed to champion the effort. He plans on contacting other groups that have successfully setup stations and hopes to talk to someone who tried to setup a station but wasn’t successful to learn all he can about the process. He’ll report back to the board at the next meeting.

Under New Business, Kristen mentioned that the Winter Banquet date has been set at January 23rd at Michael’s at Shoreline. Sign-ups are now open at: <http://www.fars.k6ya.org/events/banquet>. Scroll to the middle of the page to purchase tickets.

Gerry, N6NV, mentioned that he received a call from the school where the clubs PE-95 generator has been stored. They’d like to see us find another home for it. After a short discussion, the board agrees that we don’t really need it any longer as it’s been many years sense it was last used. Gerry will coordinate getting it relocated until a buyer is located. If you know anyone who might be interested, contact Gerry.

The meeting was adjourned at 9:00.

Jim Thielemann, K6SV
Secretary/membership

New Member:
Nathan Dinitz, KK6KPQ

Returning Member:
Ramiro Calvo, KE6BWF

2014 Elections

Running for office in 2015 are:

- Kristen McIntyre, K6WX (Pres),
- Marty Wayne, W6NEV (VP),
- Jim Thielemann, K6SV (Secretary/Membership),
- Ron Chester. W6AZ (Treasurer),
- Darryl Presley, KI6LDM (Dir) 1 year seat,
- Larry Rebarchik, N6DB (Dir) 1 year seat,
- Byron Beck, N6UOB (Dir) 2 year seat

(Continued from page 3)

In this well curated museum of war time atrocity, I came across a three-tube radio (all different types and sizes of tubes as you see in the photos) which is the ugliest mishmash of components I have ever seen. Since the radio was encased in a sealed acrylic display case and since there was no accompanying circuit diagram or technical specs I could only guess that the radio is of a regen variety, using one of the three tubes as a rectifier.

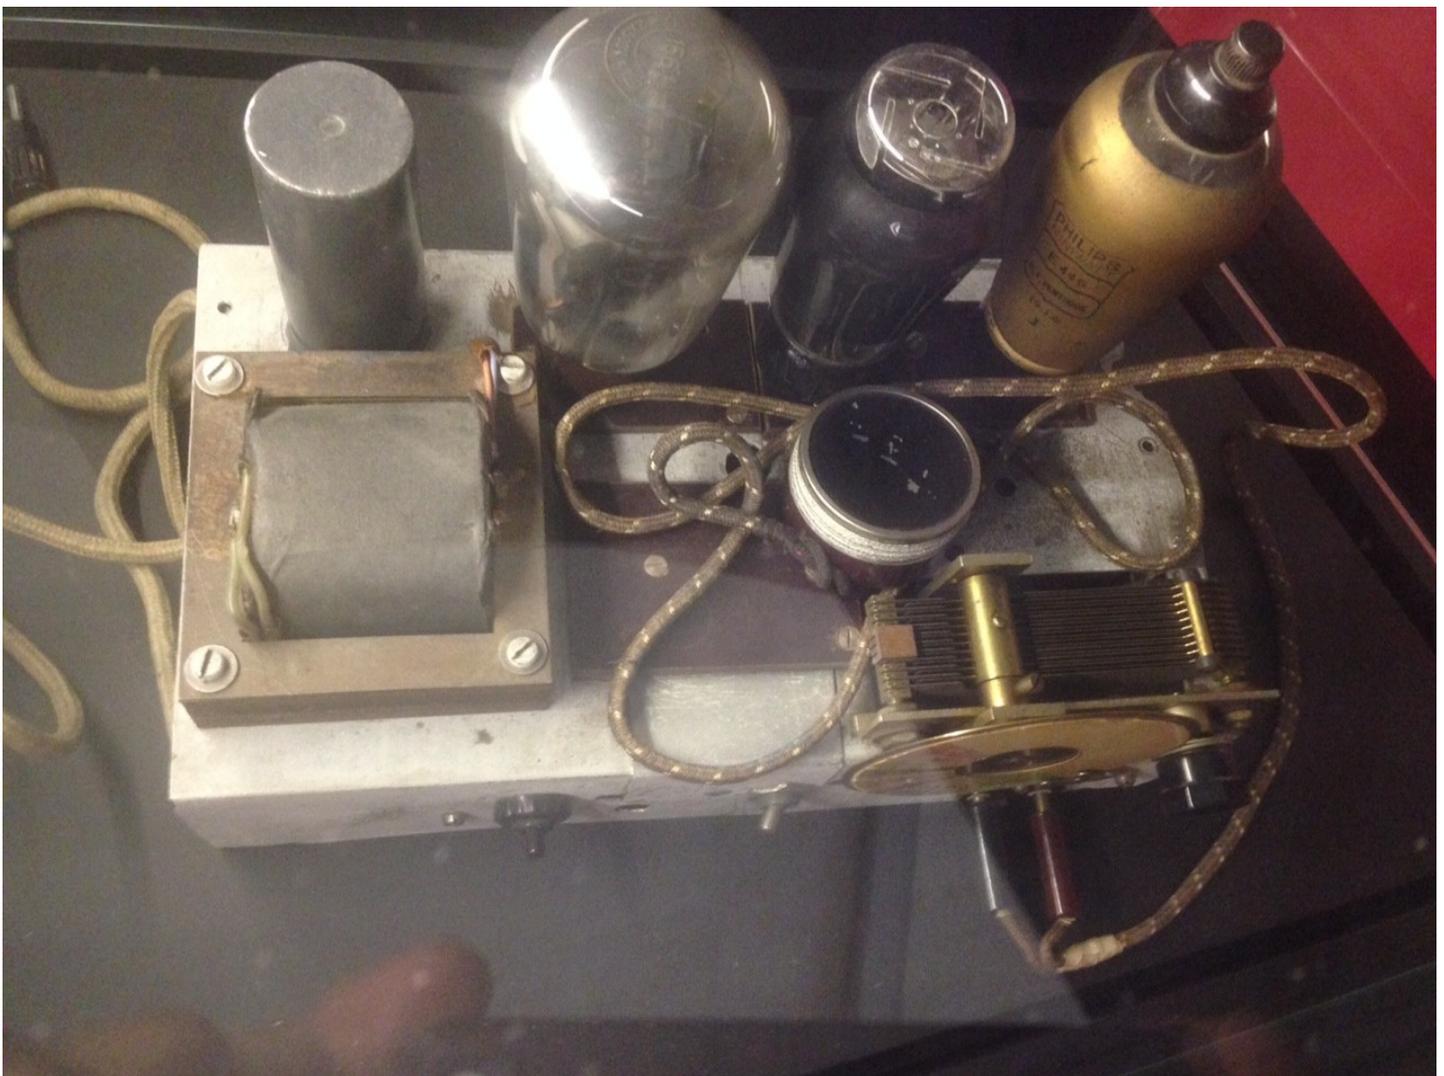

From the info plate placed next to the display case [ed of the radio shown below] we learn the following:

The radio was built by a Hungarian prisoner named Istvan Balogh who repaired electronic devices for the SS. He appropriated individual components from his work and constructed the radio in 1941. He used

it to listen to the Allied reports. The news of defeats suffered by the German army was important for bzvvg war.

The slightest infraction of the camp's rule would cost have life. As liberation approached, the rate of murder in the camp accelerated as the Nazis tried to erase evidence of their misdeeds and the inmates' already precarious existence became even more so. As I toured the cells, bunk beds, latrines, etc. which were all bare, I could not imagine how in the world Balogh could hide the components or the finished radio and managed to listen to it. Anything the inmate did in the barracks other than sleeping, eating, going to the toilet (which is completely open) and washing his body (which was rare) would be seen with suspicion and life-risking.

(Continued on page 7)

(Continued from page 6)

Needless to say the circumstance under which the radio was assembled explains why it is so "ugly." It is nonetheless the ultimate machine constructed of the minimally available material and, most importantly, it worked well enough to meet the objective on hand just like the other two clandestine radios I wrote about. It is a product of human will and ingenuity par excellence.

Field Day 2014 Results

In case you've been hiding under a rock, and missed the announcement at our last meeting, and didn't look at QST or the ARRL website, the scores are out for Field Day 2014. Once again, PAARA scored very well [ed with 15,716 points], improving the club's standing in the national ranks from last year.

In class 4A, nationwide, we moved up to 2nd from 3rd in 2013, beating the Delaware Amateur Radio Association, last year's 2nd place finisher. The Huntsville Amateur Radio Club took first in 4A again, but we have them in our sights for next year.

Overall, PAARA placed 11th this year, moving up from 17th overall in 2013, a very nice improvement in standing. Let's shoot for breaking into the top 10 this coming year.

In the Pacific Division, for all classes, we were 3rd again this year. The first two positions in the division, K6EJ, West Valley and W6YX, Stanford swapped positions, with YX coming out on top.

Despite less than optimal band conditions, and missing a few bonus points, the entire team performed

(Raffle Prizes — Continued on page 8)

(Continued from page 7)

excellently, with fewer hiccups than ever. Things went pretty much according to the continually evolving “Plan.”

Thanks to everyone who pitched in for an outstanding effort. I’m already looking forward to 2015.

73 de

PAARAgaphs Ad Rates

PAARAgaphs accepts paid advertisements from non-members. (short personal ads remain free for members in good standing). **All ad rates listed are per issue.**

1. Not-for-profit ads by association members for ham-related items and wants. No cost for business card-size ads (additional space at \$2.50 per business card size per issue).
 2. For Profit organizations and/or individuals: \$5-business card size, \$25-half page, \$50 full page or back cover per issue.

These fees may be reduced or waived in exchange for a valuable consideration that is given to the Association or its general membership. Such consideration must be in addition to any existing arrangements with the association. The PAARAgaphs editors reserve the right to reject any ad deemed to be not in the best interest of the Association.
 All fees payable in advance by the year with "scanner-ready" copy or text-only ads. **Give payment and copy to Ron Chester, W6AZ**
